

New generation BACross fill

Spare parts guide

New generation BACross fill

The patented BACross fill is designed and tested in the BAC laboratories.

Benefits

- guaranteed performance
- lower maintenance costs
- · easy core inspection: sheet by sheet without dismantling
- · easy cleaning: sheet by sheet inside the tower
- · easy to handle in tight enclosures or site conditions
- perfect fit: model specific size
- low shipping costs: nested shipment and fill staging

Characteristics

- BAC patented design with telescopic fill support
- maximum water air contact
- integrated eliminators (Eurovent certified)
- · self-extinguishing PVC material, impervious to rot and biological attack
- for temperatures up to 55°C

Watch this movie and find out all about the benefits **new generation BACross fill** has to offer:
